

How to Print?

The *U.S. ARMED FORCES Standard Military Rank Charts* can be printed in 3 ways. The 11 X 17 PDF file can be saved to a USB thumb drive and taken to *Office Max, Kinkos*, etc., and printed on an 11 X 17 tabloid sheet of paper, for about \$1.50 a copy. The same 11 X 17 chart can also be printed on a standard desk top printer on 8.5 X 11 paper, when the "Scale to Fit" feature is selected. The (2) 8.5 X 11 PDF files are the 11 X 17 charts split in half and placed on 2 sheets that can be taped together to make a full sized 11 X 17 chart. When printing the (2) 8.5X 11 versions, make sure you select "No Scaling". If you have problems or questions about printing these files, email:
